

Love
your smile
with RECALDENT gum

Long-lasting gum

New Green Mint Flavour

Healthier teeth

RECALDENT gum contains 1.2%
RECALDENT™ (CPP-ACP).

RECALDENT™ (CPP-ACP) is a revolutionary ingredient that stabilises and delivers high quantities of calcium and phosphate, which are the essential building blocks for teeth.

RECALDENT™ (CPP-ACP) is derived from milk casein, sourced from the best cow herds in Australia and New Zealand and then refined at a purpose built manufacturing location in Melbourne, Australia.

RECALDENT gum is clinically proven

In 2008, the results of a double-blind randomised clinical trial confirmed the efficacy of adding RECALDENT™ (CPP-ACP) to a sugar-free gum.

2,720 adolescent from 29 schools in Victoria, Australia were randomly selected to chew 3 times per day either a sugar-free gum or an identical gum containing RECALDENT™ (CPP-ACP)

Using radiographs to monitor lesions, the trial results concluded that RECALDENT sugar-free gum significantly slowed progression and enhanced regression of approximal caries (decay between teeth) relative to a control sugar-free gum.

The Anticariogenic Effect of Sugar-Free Gum Containing CPP-ACP Nanocomplexes on Approximal Caries Determined Using Digital Bitewing Radiography M.V. Morgan, G.G. Adams, D.L. Bailey, C.E. Tsao, S.L. Fischman, E.C. Reynolds Caries Res 2008;42:171-184

Love your smile

RECALDENT gum helps your teeth in many ways

Chewing RECALDENT sugar-free gum with long lasting flavours helps stimulate saliva flow. Saliva keeps our mouths healthy and is nature's way of protecting our teeth.

The inclusion of RECALDENT™ (CPP-ACP) into a sugar-free gum enhances the benefits of stimulated saliva by helping:

- protect teeth from erosive mineral loss
e.g. acidic beverages
- inhibit plaque formation and growth of harmful bacteria on teeth
- protect teeth from decay-causing acid in plaque
- promote enamel subsurface remineralisation

Recommendation: RECALDENT gum

Name of Patient _____

File _____ Date _____

You have been prescribed RECALDENT gum to help

Chew RECALDENT gum

One piece 3 times per day after eating

Two pieces 3 times per day after eating

RECALDENT gum contains RECALDENT™ (CPP-ACP), a unique ingredient developed at The School of Dental Science, The University of Melbourne, Victoria, Australia. RECALDENT™ and RECALDENT™ Device are trademarks used under licence. RECALDENT gum should not be used by people with milk protein allergies.
