AS THE LARGEST INSTALLER OF CBCT UNITS IN NEW ZEALAND HENRY SCHEIN TAKE 3D IMAGING SERIOUSLY!

We've sold and installed over 60 Cone Beam units in the last few years, so its safe to say we are now experts. Our manufacturer trained Sales Specialists are backed by our in-house service team who specialise in providing our customers the on-going support needed to ensure maximum functionality and longevity on your investment.

Morita Veraview X800

The winner of the iF Design Gold Award is characterised by an inspirational design as well as outstanding image quality. Accordingly, the 2D/3D X-ray unit Veraview X800 provides superior diagnostics for dentists and safety for patients. The incredible attention to detail, groundbreaking resolution of more than 2.5 LP/mm MTF and a voxel size of 80µm are reflected not only in the image quality but also in the range of features.

- Minimal artifacts
- Eleven fields of view
- Sharp panoramic images
- Face-to-face design
- Reduced doses
- Partial cephalometric images
- Network integration

FROM \$99,950

KaVo OP3D

The KaVo OP3D makes choosing your X-ray system simple. It is a complete X-ray platform that provides easy-to-use features throughout the entire dental imaging workflow. With its versatile imaging programs and intuitive user interface, the KaVo OP3D in its different configurations offers imaging excellence to users of any dental specialty.

- Fast Scan - 2D panoramic imaging in just 9 seconds
- ORTHOfocus feature for providing the optimum panoramic image layer automatically
- Four resolutions for 3D (Low Dose Technology (LDT), Standard, High, and Endo) combined with Metal Artifact Reduction (MAR) technology
- Four predefined volumes: 5x5, 6x9, 9x11 and (optional) 9x14 cm - thanks to SMARTVIEW 2.0 the volumes are freely positionable and height adjustable in 5mm steps

FROM \$98,750

Planmeca ProMax 3D

Planmeca ProMax 3D is a product family consisting of exceptional all-in-one units. With three different types of three-dimensional imaging – as well as panoramic, extraoral bitewing and cephalometric imaging – these intelligent units can meet all your maxillofacial imaging needs.

Planmeca is the first manufacturer to combine three different types of 3D data with one X-ray unit. The 3D family brings together a Cone Beam Computed Tomography (CBCT) image, a 3D face photo and a 3D model scan into one 3D image – using the same advanced software. This 3D combination creates a virtual patient in 3D, helping you with all your clinical needs.

- Four field of view units to fit every speciality
- Premium image quality
- Automatic patient movement correction
- Planmeca Ultra Low Dose Imaging
- Comprehensive software with Romexis 6

PROMAX CLASSIC FROM \$80,000

CHAIRSIDE START-UP PACKAGE

If you're new to digital dentistry and looking for a start-up solution, this package incorporates everything you'll need to get up and running.

Seamlessly integrate 3Shape TRIOS scanning, planning and design software with the trusted connection to the VHF Z4 Mill to produce first-class restorations. The Z4's futuristic housing and intuitive, easy-to-use operating controls conceal a high-precision milling and grinding machine that was designed specifically for one-visit applications.

The VITA SMART.FIRE is a firing unit developed specifically for dental practices for the crystallisation, glaze, stain, and corrective firing of all common chairside materials.

WORLD LEADING AIR PURIFIERS WITH VIRUSKILLER™ TECHNOLOGY

Leading the global fight against aerosol pathogens, and perfect for all areas of the dental practice, the Radic8 range of air purifiers will sanitise reception, hallways and operatories in any dental setting. The sterilisation is achieved in a single air pass. Protect your staff and your patients with this patented technology which neutralises all airborne pathogens through a combination of filters and air sterilisation. Even mercury vapour and other gases are neutralised.

VK401

With its large air exchange capacity, the VK401 wall mounted unit is ideal for dental surgeries, meeting and waiting rooms.

- Low running costs
- Stylish and compact
- Simple installation and maintenance

Neutralises pathogens in large areas up to 60m²

CEMENTS – G-CEM LINK FORCE & G-CEM ONE

G-AENIAL A'CHORD

G-ænial® A'CHORD is a universal composite restorative with a simplified unishade system. G-ænial A'CHORD offers dentists a versatile universal composite for anterior and posterior restorations. Thanks to its simplified unishade system, it achieves the aesthetics of the 16 classic Vita shades with its 5 core shades.

A'CHORD Simplification & Aesthetics.

G-CEM VENEER

Introducing a new light cured resin veneer cement from GC, for demanding and predictable aesthetics, perfect flow and high mechanical properties. G-CEM Veneer is highly filled, very colour stable and extremely wear resistant. It has mechanical properties similar to paste-like composites, yet with the ease of handling, film thickness and flow that makes it an ideal veneer cement.
