

# CALMIX™

## CALCIUM HYDROXIDE PASTE

**HIGH pH**  
HIGH ANTIMICROBIAL  
POTENTIAL:  
EFFECTIVE AGAINST  
E.FAECALIS &  
C.ALBICANS

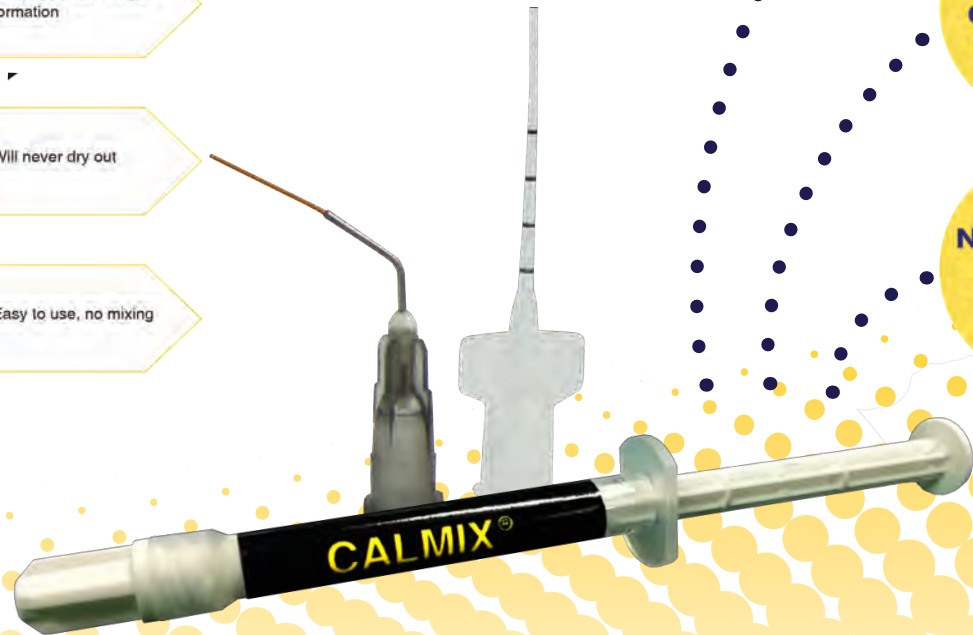

Medicament	C.albicans*
Pulpdent®**	2.9,2.7
CALMIX	>4.1, >4.2

- Better dissolution of calcium hydroxide** → Higher ionization and pH achieved (CALMIX recorded >14).
- High pH** → High antimicrobial potential: Effective against E.faecalis & C.albicans
- Greater diffusion of hydroxyl ions** → Stimulates hard tissue formation
- Water free & no methyl cellulose** → Will never dry out
- Ergonomic syringes & capillary tips & microtips** → Easy to use, no mixing

**GREATER DIFFUSION OF HYDROXYL IONS**

**SUPERIOR DISSOLUTION OF CALCIUM HYDROXIDE**

**NO WATER OR METHYL CELLULOSE**

Exclusive via  
**HENRY SCHEIN® | HALAS**

**AUSTRALIAN  
INNOVATION**

**TGA Approved**
