## Dr Jorge Vera Techniques & Decision Making in Endodontic Retreatment

Wednesday August 4 2021, 1pm  
\$50+gst

### Lecture Objectives/Questions that will be addressed:

1. Clinical decision making between retreatment, extractions and apical microsurgery, what should I know about success rates?
2. Modern techniques to remove posts, broken instruments and GP carriers.
3. Sealing perforations with the use of hydraulic silicate based materials.

There are many “tools” available to perform retreatment; This presentation will focus on the tools and key concepts of retreatment that will allow you to grow and maximize your ability to retreat endodontic cases.

Dr Vera will assist you in more effective diagnosis, developing successful treatment plans, use specific tools to achieve superior clinical results
