

Quick and simple finance

Flexible terms at competitive rates

Henry Schein partners with secure global finance providers to offer all New Zealand registered dental professionals' access to flexible finance products at competitive rates.

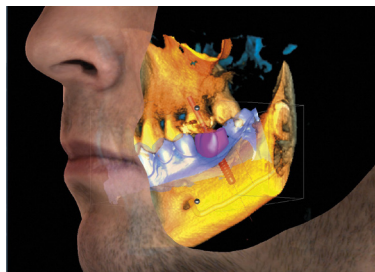

A simple one-page application form is all we need to provide a starting limit of \$500,000 that you can use for new equipment, a surgery fit-out or renovation. In some circumstances, you can even use a portion of the loan to purchase consumables.

The right choice of finance solution depends on what you want to happen with your assets. Typically, we work with a hire purchase model and you can choose the repayment terms that suit you best, including options for deferred payments. Rental agreements are also possible and may be a good choice where you anticipate updating technology at the conclusion of the term. You may also wish to include a service agreement in your purchase.

If your investment is likely to exceed \$500,000, our finance team will talk with you about appropriate security, through assets and liability statements and business projections.

Your Henry Schein Equipment Specialist can help you with a quote or provide you with an estimate if you just want to do some budgeting at this stage.

Phone 0800 808 855 or email hsfsnz@henryschein.co.nz

* Terms and conditions apply: Henry Schein delivers finance products via a third party provider whose normal lending criteria and loan terms for secured lending apply. Pre-approval is based on the information disclosed to Henry Schein.

Henry Schein are pleased to offer a 24 month warranty from date of purchase on all correctly installed and well maintained equipment.
