VITA

Anne-Marie Wehrung, French Master Dental Technician and prosthetics specialist reports on the latest VITA denture teeth and demonstrates the advantages of the new tooth line VITAPAN EXCELL with its brilliant vitality in shape, shade and play of light. In a combination of lecture and hands-on sessions

she offers advanced training in lingualised set-up technique and how to achieve a natural looking end result.

| | 6.00 pm | Closing / Remarks |

Speaker

Ms. Anne-Marie Wehrung, Master Dental Technician from France and one of VITA's regional sales managers is a well-known speaker on denture teeth and prosthetics. In this seminar she will share with you her vast experience as a technical trainer and advisor. Before being a lecturer and manager of the French VITA subsidiary, she has worked alongside Dr End, a renowned dentist, tooth developer and researcher who has brought about the concept of Physiodens denture teeth in close co-operation with the VITA company. Also, Anne-Marie has taken part in many live theatre symposiums where dentists and prosthetic technicians under Dr End's guidance fabricate dentures for patients.
