# COURSE OVERVIEW

This single-day event will be run by Dr. Ahmad Al-Hassiny, Director of the Institute of Digital Dentistry, alongside Greg Goodman, and Hyll Coraj, Directors of Pacific Dental Specialities.

By the end of the day, you will learn how to take perfect intraoral scans within 60 seconds. You will learn the ideal scanning protocol for all clinical situations and understand isolation and retraction techniques. We will also go over the various Medit Apps and how to utilise these in your practice for maximum ROI.

## Master Intraoral Scanning

Learn how to properly use intraoral scanners to take accurate impressions, quickly and efficiently.

## Learn How to Use Medit Apps

Smile design, Orthodontic Simulation, Crown Fit Checker and Medit Compare! Learn how to utilise all this software.

## Introduction to Exocad

An introduction to Exocad chairside software. Learn how you may move to the next level and mill in-house.
