

Minimally Invasive Soft Tissue Grafting for Teeth and Implants

Pat Allen is Coming to
Queenstown, NZ

August 24-25, 2018

www.DrEdwardPAllen.com

The Center for Advanced Dental Education is pleased to come to New Zealand in August, 2018

*This renowned 2-day **Hands-On Course** on Minimally Invasive Soft Tissue Grafting for Teeth and Implants is offered by **Edward P. Allen, DDS, PhD**. This course established more than 15 years ago boasts over 2000 alumni worldwide and has become recognized as the best soft tissue grafting course available anywhere.*

Course Description

This interactive limited attendance course is intended for periodontists and general dentists with surgical experience who wish to learn more about esthetic periodontal plastic surgical procedures for treatment of soft tissue defects at teeth and implant sites. The treatment concepts presented are based on current clinical and biologic research. All aspects of treatment planning and step-by-step surgical procedures will be presented and discussed. Case presentations, practical hands-on exercises and an unedited video surgical demonstration provide in-depth knowledge about the use of soft tissue grafting techniques to achieve predictable coverage of single and multiple recessions, increase in tissue thickness, and extension of the vestibule. Other significant outcome parameters including gain of keratinized tissue will be presented and discussed. A complete color handout is provided that includes all lecture material, forms, and references.

Course fee: \$5000.00USD

Early Registration through April 30, 2018: \$4500.00USD
