# VITAL BLEACHING

## WHAT YOU NEED TO KNOW ABOUT TOOTH WHITENING

### SATURDAY THE 9TH OF MARCH 2019

---

**Dr. Andrew Brostek**

BSc. BDSc. FICD FPFA

Has been in private general practice for over 35 years. He is a Clinical Senior Lecturer in Operative Dentistry at OHCWA, Dental School Western Australia, as well as current president of the Australian Association of Laser Dentists (AALD).

He has lectured to dentists, students and allied dental staff in over 14 countries in his areas of interest, including Tooth Whitening.

He has been published in several peer-reviewed dental journals, including the Australian Dental Journal, and is a listed contributor to the 3rd edition of 'Preservation and Restoration of Tooth Structure' by Mount, Hume, Ngo and Wolff, 2015.

# COURSE SUMMARY

This course aims to refresh and update your knowledge on tooth whitening. This will have a direct benefit in achieving improved clinical results and enable you to understand and meet patient expectations.

This half-day program combines lecture material and hands-on exercises to review the aim of treatment, understand the methods for achieving optimal tooth whitening and what results can be actually be achieved. The hands-on component involves the use of in-office bleaching lights.

**Participants will be paired, and each participant (with their consent) will have their teeth whitened, to best experience in-office whitening procedures. Participants will be given home bleaching materials to allow take home tray treatments.**

- Tooth optics and the concept of tooth 'lightening' compared to tooth whitening
- Understanding whitening chemistry
- Risk analysis and management
- An assessment of all in-office tooth whitening systems
- Reversing white spot lesions after tooth whitening
- Useful tooth and shade evaluation and clinical procedures demonstrated

## LEARNING OBJECTIVES

At the conclusion of the program participants should be able to:

- Accurately assess patient suitability for tooth whitening
- Confidently manage patient expectations
- Understand all the different whitening modalities, including laser whitening
- Choose appropriate in-office and home tray techniques for a wide range of cases
- Improve your internal marketing of whitening procedures
