The idea of going digital has never been more relevant than now. Please join us to hear Dr Bharat Agrawal share the many advantages of incorporating the iTero scanner into his daily workflow.

## **Key Discussion Points**

- Why you should go digital (if not already) & why the iTero intraoral scanner is the ideal choice
- Benefits of a digital workflow throughout a challenging 2020
- Restorative functionality & Direct-to-Lab workflow
- Invisalign treatment & DSD integration

**Dr Bharat Agrawal** has completed his Masters in Aesthetic Dentistry with Distinction (MSc AesDent) through King's College in London. His final year dissertation looked at the effectiveness and longevity of take home dentist prescribed tray bleaching techniques combined with a clinical audit.

He has successfully utilised the Invisalign protocol and digital workflow using the iTero Element scanner to practise ethical, minimal intervention aesthetic dentistry. He is actively involved in mentoring and teaching recent graduates and is passionate about the paradigm shift towards minimally invasive approaches to comprehensive smile make overs.
