This Safety Data Sheet has been prepared in accordance with the New Zealand, Hazardous Substances (Safety Data Sheets) Notice 2017.

### IDENTIFICATION:

#### 1.1. Product identifier

3M™ Imprint™ 4 Penta™ Heavy Refill (71484)

#### Product Identification Numbers

70-2011-4139-0

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Dental Product, Impression Material

##### Restrictions on use

For use by dental professionals only.

#### 1.3. Supplier's details

|                   |                                                              |
|-------------------|--------------------------------------------------------------|
| <b>Address:</b>   | 3M New Zealand Ltd, 94 Apollo Drive, Rosedale 0632, Auckland |
| <b>Telephone:</b> | (09) 477 4040                                                |

#### 1.4. Emergency telephone number

24 hr Medical Emergency, National Poisons Centre, 0800 764 766 (0800 POISON)

**This product is a kit or a multipart product which consists of multiple, independently packaged components. A Safety Data Sheet for each of these components is included. Please do not separate the component Safety Data Sheets from this cover page. The document numbers of the SDSs for components of this product are:**

31-6670-9, 31-6673-3

All components in this KIT are classified as non-hazardous in accordance with the relevant criteria of the HSNO Act 1996, the Hazardous Substances (Classification) Notice 2017 and Hazardous Substances (Minimum Degrees of Hazard) Notice 2017.

### TRANSPORT INFORMATION

NOT HAZARDOUS FOR TRANSPORT

**Revision information:**

Complete document review.

The information in this Safety Data Sheet (SDS) is believed to be correct as of the date of issue. TO THE EXTENT PERMITTED BY LAW, 3M MAKES NO WARRANTY, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR COURSE OF PERFORMANCE OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of use or application. Given the variety of factors that can affect the use and application of a 3M product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluates the 3M product to determine whether it is fit for a particular purpose and suitable for user's method of use or application. 3M provides information in electronic form as a service to customers. Due to the remote possibility of electronic transfer may have resulted in errors, omissions or alterations in this information; 3M makes no representations as to its completeness or accuracy. In addition, information obtained from a database may not be as current as the information in the SDS available directly from 3M.

This Safety Data Sheet has been prepared in accordance with the New Zealand, Hazardous Substances (Safety Data Sheets) Notice 2017.

### SECTION 1: Identification

#### 1.1. Product identifier

3M™ Imprint™ 4 Penta™ Heavy Base

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Dental Product, Impression Material

##### Restrictions on use

For use by dental professionals only.

#### 1.3. Supplier's details

**Address:** 3M New Zealand Ltd, 94 Apollo Drive, Rosedale 0632, Auckland

**Telephone:** (09) 477 4040

**E Mail:** innovation@nz.mmm.com

**Website:** 3m.co.nz

#### 1.4. Emergency telephone number

24 hr Medical Emergency, National Poisons Centre, 0800 764 766 (0800 POISON)

### SECTION 2: Hazard identification

Not classified as hazardous in accordance with the relevant criteria of the HSNO Act 1996 and the Hazardous Substances (Hazard Classification) Notice 2020.

Refer to Section 14 of this Safety Data Sheet for product Dangerous Goods Classification.

#### 2.1. Classification of the substance or mixture

Not classified as hazardous.

#### 2.2. Label elements

##### SIGNAL WORD

Not applicable.

##### Symbols:

Not applicable.

**PRECAUTIONARY STATEMENTS****Prevention**

P280E

Wear protective gloves.

**SECTION 3: Composition/information on ingredients**

| <b>Ingredient</b>                                                                                                      | <b>CAS Nbr</b> | <b>% by Weight</b> |
|------------------------------------------------------------------------------------------------------------------------|----------------|--------------------|
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy-terminated (CAS 104780-78-1), bulk material | None           | 40 - 60            |
| Vinyl-polydimethyl siloxane                                                                                            | 68083-19-2     | 20 - 40            |
| Dimethyl methyl hydrogen silicone fluid                                                                                | 68037-59-2     | 1 - 20             |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica                           | 67762-90-7     | 1 - 10             |
| Allyltrimethylsilane                                                                                                   | 762-72-1       | < 2                |
| Aluminium oxide                                                                                                        | 1344-28-1      | < 2                |
| Polyethyleneglycol, siloxane terminated                                                                                | 27306-78-1     | < 2                |

**SECTION 4: First aid measures****4.1. Description of first aid measures****Inhalation**

No need for first aid is anticipated. If symptoms develop, remove the affected person to fresh air. Get medical attention.

**Skin contact**

If exposed, wash with soap and water. If signs/symptoms develop, get medical attention.

**Eye contact**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If swallowed**

Do not induce vomiting. Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable

**SECTION 5: Fire-fighting measures****5.1. Suitable extinguishing media**

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**Hazardous Decomposition or By-Products****Substance**

Carbon monoxide.

Carbon dioxide.

Irritant vapours or gases.

**Condition**

During combustion.

During combustion.

During combustion.

**5.3. Special protective actions for fire-fighters**

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

**5.4. Hazchem code:** Not applicable.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment.

**6.3. Methods and material for containment and cleaning up**

Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

**SECTION 7: Handling and storage**

Refer to Section 15 - Controls for more information

**7.1. Precautions for safe handling**

Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) A no-touch technique is recommended. If skin contact occurs, wash skin with soap and water. If product contacts glove, remove and discard glove, wash hands immediately with soap and water and then re-glove.

**7.2. Conditions for safe storage including any incompatibilities**

Store away from heat. Store away from acids. Store away from strong bases. Store away from oxidising agents. Store away from amines.

**7.3. Certified handler**

Not required

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters****Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| <b>Ingredient</b>                                                                          | <b>CAS Nbr</b> | <b>Agency</b>      | <b>Limit type</b>                                   | <b>Additional comments</b>            |
|--------------------------------------------------------------------------------------------|----------------|--------------------|-----------------------------------------------------|---------------------------------------|
| Aluminium oxide                                                                            | 1344-28-1      | New Zealand<br>WES | TWA(8 hours):10 mg/m <sup>3</sup>                   |                                       |
| Aluminum, insoluble compounds                                                              | 1344-28-1      | ACGIH              | TWA(respirable fraction):1<br>mg/m <sup>3</sup>     | A4: Not class. as human<br>carcinogen |

CEIL: Ceiling

## 8.2. Exposure controls

### 8.2.1. Engineering controls

Use in a well-ventilated area.

### 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Safety glasses with side shields.

Refer AS/NZS 1336 - Recommended practices for occupational eye protection and for performance specifications AS/NZS 1337, Parts 1 - 6 - Personal eye-protection.

#### Skin/hand protection

See Section 7.1 for additional information on skin protection.

#### Respiratory protection

Respiratory protection is not required.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                                          |                                               |
|----------------------------------------------------------|-----------------------------------------------|
| <b>Physical state</b>                                    | Solid.                                        |
| <b>Specific Physical Form:</b>                           | Paste                                         |
| <b>Colour</b>                                            | Blue                                          |
| <b>Odour</b>                                             | Minty                                         |
| <b>Odour threshold</b>                                   | <i>No data available.</i>                     |
| <b>pH</b>                                                | <i>Not applicable.</i>                        |
| <b>Melting point/Freezing point</b>                      | <i>Not applicable.</i>                        |
| <b>Boiling point/Initial boiling point/Boiling range</b> | <i>Not applicable.</i>                        |
| <b>Flash point</b>                                       | No flash point                                |
| <b>Evaporation rate</b>                                  | <i>No data available.</i>                     |
| <b>Flammability (solid, gas)</b>                         | Not classified                                |

| <b>Vapor Density and/or Relative Vapor Density</b>       | <i>No data available.</i>                     |
| <b>Density</b>                                           | 1.5 g/cm <sup>3</sup> - 1.7 g/cm <sup>3</sup> |
| <b>Relative density</b>                                  | 1.5 - 1.7 [Ref Std: WATER=1]                  |

|                                        |                    |
|----------------------------------------|--------------------|
| Water solubility                       | Negligible         |
| Solubility- non-water                  | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Autoignition temperature               | Not applicable.    |
| Decomposition temperature              | No data available. |
| Viscosity/Kinematic Viscosity          | No data available. |
| Volatile organic compounds (VOC)       | Not applicable.    |
| Percent volatile                       | Not applicable.    |
| VOC less H2O & exempt solvents         | Not applicable.    |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

### 10.2 Chemical stability

Stable.

### 10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

### 10.4 Conditions to avoid

Heat.

### 10.5 Incompatible materials

Amines.

Strong acids.

Strong bases.

Strong oxidising agents.

### 10.6 Hazardous decomposition products

#### Substance

#### Condition

None known.

Refer to Section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1 Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation

This product may have a characteristic odour; however, no adverse health effects are anticipated.

#### Skin contact

Contact with the skin during product use is not expected to result in significant irritation.

#### Eye contact

Contact with the eyes during product use is not expected to result in significant irritation.

#### Ingestion

No known health effects.

#### Additional Health Effects:

#### Carcinogenicity:

Exposures needed to cause the following health effect(s) are not expected during normal, intended use:

Contains a chemical or chemicals which can cause cancer.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

| Name                                                                                                                   | Route                          | Species                | Value                                          |

| Aluminium oxide                                                                                                        | Dermal                         |                        | LD50 estimated to be > 5,000 mg/kg             |
| Aluminium oxide                                                                                                        | Inhalation-Dust/Mist (4 hours) | Rat                    | LC50 > 2.3 mg/l                                |
| Aluminium oxide                                                                                                        | Ingestion                      | Rat                    | LD50 > 5,000 mg/kg                             |
| Allyltrimethylsilane                                                                                                   | Dermal                         | Professional judgement | LD50 estimated to be 2,000 - 5,000 mg/kg       |
| Allyltrimethylsilane                                                                                                   | Ingestion                      | similar compounds      | LD50 estimated to be 2,000 - 5,000 mg/kg       |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name                                                                        | Species | Value                     |
|-----------------------------------------------------------------------------|---------|---------------------------|
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy- |         | No significant irritation |

|                                                                                              |               |                           |
|----------------------------------------------------------------------------------------------|---------------|---------------------------|
| terminated (CAS 104780-78-1), bulk material                                                  |               |                           |
| Vinyl-polydimethyl siloxane                                                                  | Rabbit        | No significant irritation |
| Dimethyl methyl hydrogen silicone fluid                                                      | Rabbit        | No significant irritation |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Rabbit        | No significant irritation |
| Polyethyleneglycol, siloxane terminated                                                      | Rabbit        | No significant irritation |
| Aluminium oxide                                                                              | Rabbit        | No significant irritation |
| Allyltrimethylsilane                                                                         | Not available | Irritant                  |

### Serious Eye Damage/Irritation

| Name                                                                                         | Species       | Value                     |
|----------------------------------------------------------------------------------------------|---------------|---------------------------|
| Vinyl-polydimethyl siloxane                                                                  | Rabbit        | Mild irritant             |
| Dimethyl methyl hydrogen silicone fluid                                                      | Rabbit        | Mild irritant             |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Rabbit        | No significant irritation |
| Polyethyleneglycol, siloxane terminated                                                      | Rabbit        | Severe irritant           |
| Aluminium oxide                                                                              | Rabbit        | No significant irritation |
| Allyltrimethylsilane                                                                         | Not available | Severe irritant           |

### Sensitisation:

#### Skin Sensitisation

| Name                                                                                         | Species          | Value          |
|----------------------------------------------------------------------------------------------|------------------|----------------|
| Dimethyl methyl hydrogen silicone fluid                                                      | Guinea pig       | Not classified |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Human and animal | Not classified |
| Polyethyleneglycol, siloxane terminated                                                      | Guinea pig       | Not classified |

### Respiratory Sensitisation

For the component/components, either no data are currently available or the data are not sufficient for classification.

### Germ Cell Mutagenicity

| Name                                                                                                                   | Route    | Value                                                                        |
|------------------------------------------------------------------------------------------------------------------------|----------|------------------------------------------------------------------------------|
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy-terminated (CAS 104780-78-1), bulk material | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy-terminated (CAS 104780-78-1), bulk material | In vivo  | Some positive data exist, but the data are not sufficient for classification |
| Dimethyl methyl hydrogen silicone fluid                                                                                | In Vitro | Not mutagenic                                                                |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica                           | In Vitro | Not mutagenic                                                                |
| Polyethyleneglycol, siloxane terminated                                                                                | In Vitro | Not mutagenic                                                                |
| Polyethyleneglycol, siloxane terminated                                                                                | In vivo  | Not mutagenic                                                                |
| Aluminium oxide                                                                                                        | In Vitro | Not mutagenic                                                                |
| Allyltrimethylsilane                                                                                                   | In Vitro | Not mutagenic                                                                |

### Carcinogenicity

| Name                                                                                                                   | Route          | Species          | Value                                                                        |
|------------------------------------------------------------------------------------------------------------------------|----------------|------------------|------------------------------------------------------------------------------|
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy-terminated (CAS 104780-78-1), bulk material | Inhalation     | Human and animal | Carcinogenic.                                                                |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica                           | Not specified. | Mouse            | Some positive data exist, but the data are not sufficient for classification |
| Aluminium oxide                                                                                                        | Inhalation     | Rat              | Not carcinogenic                                                             |

## Reproductive Toxicity

### Reproductive and/or Developmental Effects

| Name                                                                                         | Route     | Value                                              | Species | Test result           | Exposure Duration            |
|----------------------------------------------------------------------------------------------|-----------|----------------------------------------------------|---------|-----------------------|------------------------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Ingestion | Not classified for female reproduction             | Rat     | NOAEL 509 mg/kg/day   | 1 generation                 |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Ingestion | Not classified for male reproduction               | Rat     | NOAEL 497 mg/kg/day   | 1 generation                 |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Ingestion | Not classified for development                     | Rat     | NOAEL 1,350 mg/kg/day | during organogenesis         |
| Polyethyleneglycol, siloxane terminated                                                      | Ingestion | Not classified for reproduction and/or development | Rat     | NOAEL 450 mg/kg/day   | premating & during gestation |

## Target Organ(s)

### Specific Target Organ Toxicity - single exposure

| Name                 | Route      | Target Organ(s)        | Value                            | Species       | Test result         | Exposure Duration |
|----------------------|------------|------------------------|----------------------------------|---------------|---------------------|-------------------|
| Allyltrimethylsilane | Inhalation | respiratory irritation | May cause respiratory irritation | Not available | NOAEL Not available |                   |

### Specific Target Organ Toxicity - repeated exposure

| Name                                                                                                                   | Route      | Target Organ(s)                | Value                                                                        | Species | Test result         | Exposure Duration     |
|------------------------------------------------------------------------------------------------------------------------|------------|--------------------------------|------------------------------------------------------------------------------|---------|---------------------|-----------------------|
| Quartz (14808-60-7), surface modified with silsesquioxanes, methyl, ethoxy-terminated (CAS 104780-78-1), bulk material | Inhalation | silicosis                      | Causes damage to organs through prolonged or repeated exposure               | Human   | NOAEL Not available | occupational exposure |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica                           | Inhalation | respiratory system   silicosis | Not classified                                                               | Human   | NOAEL Not available | occupational exposure |
| Aluminium oxide                                                                                                        | Inhalation | pneumoconiosis                 | Some positive data exist, but the data are not sufficient for classification | Human   | NOAEL Not available | occupational exposure |

## Aspiration Hazard

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

## SECTION 12: Ecological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

### 12.1. Toxicity

No product test data available.

| Material                                                                                                               | CAS Number | Organism      | Type                                                  | Exposure | Test endpoint | Test result |

#### 12.4. Mobility in soil

Please contact manufacturer for more details

#### 12.5 Other adverse effects

No information available.

## SECTION 13: Disposal considerations

#### 13.1. Disposal methods

In accordance with the Hazardous Substances (Disposal) Notice 2017 and the relevant criteria of the HSNO Act 1996.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty and clean product containers may be disposed as non-hazardous waste. Consult your specific regulations and service providers to determine available options and requirements. Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. If no other disposal options are available, waste product may be placed in a landfill properly designed for industrial waste.

Packaging (that may or may not contain any residual substance) may be lawfully disposed of by householders or other consumers through public or commercial waste collection services.

## SECTION 14: Transport Information

This Safety Data Sheet has been prepared in accordance with the New Zealand, Hazardous Substances (Safety Data Sheets) Notice 2017.

### SECTION 1: Identification

#### 1.1. Product identifier

3M™ Imprint™ 4 Penta™ Heavy Catalyst

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Dental Product, Impression material

##### Restrictions on use

For use by dental professionals only.

#### 1.3. Supplier's details

**Address:** 3M New Zealand Ltd, 94 Apollo Drive, Rosedale 0632, Auckland

**Telephone:** (09) 477 4040

**E Mail:** innovation@nz.mmm.com

**Website:** 3m.co.nz

#### 1.4. Emergency telephone number

24 hr Medical Emergency, National Poisons Centre, 0800 764 766 (0800 POISON)

### SECTION 2: Hazard identification

Not classified as hazardous in accordance with the relevant criteria of the HSNO Act 1996 and the Hazardous Substances (Hazard Classification) Notice 2020.

Refer to Section 14 of this Safety Data Sheet for product Dangerous Goods Classification.

#### 2.1. Classification of the substance or mixture

Not classified as hazardous.

#### 2.2. Label elements

##### SIGNAL WORD

Not applicable.

##### Symbols:

Not applicable.

**SECTION 3: Composition/information on ingredients**

| <b>Ingredient</b>                                                                            | <b>CAS Nbr</b> | <b>% by Weight</b> |

**SECTION 4: First aid measures****4.1. Description of first aid measures****Inhalation**

Remove person to fresh air. If you feel unwell, get medical attention.

**Skin contact**

No need for first aid is anticipated.

**Eye contact**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If swallowed**

Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable

**SECTION 5: Fire-fighting measures****5.1. Suitable extinguishing media**

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**Hazardous Decomposition or By-Products****Substance**

Carbon monoxide.

Carbon dioxide.

Irritant vapours or gases.

**Condition**

During combustion.

During combustion.

During combustion.

**5.3. Special protective actions for fire-fighters**

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

**5.4. Hazchem code:** Not applicable.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

### 6.2. Environmental precautions

Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## SECTION 7: Handling and storage

Refer to Section 15 - Controls for more information

### 7.1. Precautions for safe handling

Avoid prolonged or repeated skin contact. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Do not get in eyes.

### 7.2. Conditions for safe storage including any incompatibilities

Store away from heat. Store away from acids. Store away from strong bases. Store away from oxidising agents. Store away from amines.

### 7.3. Certified handler

Not required

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

#### Occupational exposure limits

No occupational exposure limit values exist for any of the components listed in Section 3 of this Safety Data Sheet.

### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use in a well-ventilated area.

#### 8.2.2. Personal protective equipment (PPE)

##### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Safety glasses with side shields.

Refer AS/NZS 1336 - Recommended practices for occupational eye protection and for performance specifications AS/NZS 1337, Parts 1 - 6 - Personal eye-protection.

##### Skin/hand protection

See Section 7.1 for additional information on skin protection.

**Respiratory protection**

None required.

**SECTION 9: Physical and chemical properties****9.1. Information on basic physical and chemical properties**

|                                                          |                                               |

| <b>VOC less H<sub>2</sub>O &amp; exempt solvents</b>     | <i>Not applicable.</i>                        |

**SECTION 10: Stability and reactivity****10.1 Reactivity**

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

**10.2 Chemical stability**

Stable.

**10.3 Possibility of hazardous reactions**

Hazardous polymerisation will not occur.

**10.4 Conditions to avoid**

Heat.

**10.5 Incompatible materials**

Amines.

Strong acids.

Strong bases.

Strong oxidising agents.

**10.6 Hazardous decomposition products****Substance****Condition**

None known.

Refer to Section 5.2 for hazardous decomposition products during combustion.

**SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

**11.1 Information on Toxicological effects****Signs and Symptoms of Exposure**

Based on test data and/or information on the components, this material may produce the following health effects:

**Inhalation**

This product may have a characteristic odour; however, no adverse health effects are anticipated.

**Skin contact**

Contact with the skin during product use is not expected to result in significant irritation.

**Eye contact**

Contact with the eyes during product use is not expected to result in significant irritation.

**Ingestion**

May be harmful if swallowed.

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea.

**Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

| <b>Name</b>                                                                                  | <b>Route</b>                   | <b>Species</b> | <b>Value</b>                                            |
|----------------------------------------------------------------------------------------------|--------------------------------|----------------|---------------------------------------------------------|

| DL-Alpha-Tocopherol                                                                          | Dermal                         | Rat            | LD50 > 3,000 mg/kg                                      |
| DL-Alpha-Tocopherol                                                                          | Ingestion                      | Rat            | LD50 > 4,000 mg/kg                                      |

ATE = acute toxicity estimate

### Skin Corrosion/Irritation

| Name                                                                                         | Species                | Value                     |
|----------------------------------------------------------------------------------------------|------------------------|---------------------------|
| Sodium aluminium silicate                                                                    | Professional judgement | No significant irritation |
| Vinyl terminated polydimethylsiloxane                                                        | Rabbit                 | No significant irritation |
| Poly(dimethylsiloxane)                                                                       | Rabbit                 | No significant irritation |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Rabbit                 | No significant irritation |
| DL-Alpha-Tocopherol                                                                          | Rabbit                 | Minimal irritation        |

### Serious Eye Damage/Irritation

| Name                                                                                         | Species                | Value                     |
|----------------------------------------------------------------------------------------------|------------------------|---------------------------|
| Sodium aluminium silicate                                                                    | Professional judgement | Mild irritant             |
| Vinyl terminated polydimethylsiloxane                                                        | Rabbit                 | Mild irritant             |
| Poly(dimethylsiloxane)                                                                       | Rabbit                 | No significant irritation |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Rabbit                 | No significant irritation |
| DL-Alpha-Tocopherol                                                                          | Rabbit                 | No significant irritation |

### Sensitisation:

#### Skin Sensitisation

| Name                                                                                         | Species          | Value          |
|----------------------------------------------------------------------------------------------|------------------|----------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Human and animal | Not classified |
| DL-Alpha-Tocopherol                                                                          | Mouse            | Sensitising    |

### Respiratory Sensitisation

For the component/components, either no data are currently available or the data are not sufficient for classification.

### Germ Cell Mutagenicity

| Name                                                                                         | Route    | Value         |
|----------------------------------------------------------------------------------------------|----------|---------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | In Vitro | Not mutagenic |
| DL-Alpha-Tocopherol                                                                          | In vivo  | Not mutagenic |

### Carcinogenicity

| Name                                                                                         | Route          | Species | Value                                                                        |
|----------------------------------------------------------------------------------------------|----------------|---------|------------------------------------------------------------------------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Not specified. | Mouse   | Some positive data exist, but the data are not sufficient for classification |

### Reproductive Toxicity

#### Reproductive and/or Developmental Effects

| Name                                                                    | Route     | Value                                  | Species | Test result         | Exposure Duration |
|-------------------------------------------------------------------------|-----------|----------------------------------------|---------|---------------------|-------------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis | Ingestion | Not classified for female reproduction | Rat     | NOAEL 509 mg/kg/day | 1 generation      |

|                                                                                              |           |                                      |     |                       |                      |

| products with silica                                                                         |           |                                      |     |                       |                      |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Ingestion | Not classified for male reproduction | Rat | NOAEL 497 mg/kg/day   | 1 generation         |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Ingestion | Not classified for development       | Rat | NOAEL 1,350 mg/kg/day | during organogenesis |

### Target Organ(s)

#### Specific Target Organ Toxicity - single exposure

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Specific Target Organ Toxicity - repeated exposure

| Name                                                                                         | Route      | Target Organ(s)                | Value          | Species | Test result         | Exposure Duration     |
|----------------------------------------------------------------------------------------------|------------|--------------------------------|----------------|---------|---------------------|-----------------------|
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl)propyl ester, hydrolysis products with silica | Inhalation | respiratory system   silicosis | Not classified | Human   | NOAEL Not available | occupational exposure |

### Aspiration Hazard

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.**

## SECTION 12: Ecological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

### 12.1. Toxicity

No product test data available.

| Material                                        | CAS Number | Organism | Type                                                  | Exposure | Test endpoint | Test result |
|-------------------------------------------------|------------|----------|-------------------------------------------------------|----------|---------------|-------------|
| Sodium aluminium silicate                       | 37244-96-5 | N/A      | Data not available or insufficient for classification | N/A      | N/A           | N/A         |
| Vinyl terminated polydimethylsiloxane           | 68083-19-2 | N/A      | Data not available or insufficient for classification | N/A      | N/A           | N/A         |
| Poly(dimethylsiloxane)                          | 63148-62-9 | N/A      | Data not available or insufficient for classification | N/A      | N/A           | N/A         |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl) | 67762-90-7 | N/A      | Data not available or insufficient for classification | N/A      | N/A           | N/A         |

|                                               |            |             |              |            |      |           |
|-----------------------------------------------|------------|-------------|--------------|------------|------|-----------|
| propyl ester, hydrolysis products with silica |            |             |              |            |      |           |
| DL-Alpha-Tocopherol                           | 10191-41-0 | Bacteria    | Estimated    | 30 minutes | EC20 | >927 mg/l |
| DL-Alpha-Tocopherol                           | 10191-41-0 | Golden Orfe | Experimental | 96 hours   | LC50 | 220 mg/l  |
| DL-Alpha-Tocopherol                           | 10191-41-0 | Water flea  | Experimental | 48 hours   | EC50 | >500 mg/l |

## 12.2. Persistence and degradability

| Material                                                                                      | CAS Number | Test type                     | Duration | Study Type    | Test result                           | Protocol                          |
|-----------------------------------------------------------------------------------------------|------------|-------------------------------|----------|---------------|---------------------------------------|-----------------------------------|
| Sodium aluminium silicate                                                                     | 37244-96-5 | Data not availbl-insufficient | N/A      | N/A           | N/A                                   | N/A                               |
| Vinyl terminated polydimethylsil oxane                                                        | 68083-19-2 | Data not availbl-insufficient | N/A      | N/A           | N/A                                   | N/A                               |
| Poly(dimethyls iloxane)                                                                       | 63148-62-9 | Data not availbl-insufficient | N/A      | N/A           | N/A                                   | N/A                               |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl) propyl ester, hydrolysis products with silica | 67762-90-7 | Data not availbl-insufficient | N/A      | N/A           | N/A                                   | N/A                               |
| DL-Alpha-Tocopherol                                                                           | 10191-41-0 | Experimental Biodegradation   | 36 days  | CO2 evolution | 58.05 %CO2 evolution/THC O2 evolution | OECD 301B - Modified sturm or CO2 |

## 12.3 : Bioaccumulative potential

| Material                                        | CAS Number | Test type                                             | Duration | Study Type | Test result | Protocol |
|-------------------------------------------------|------------|-------------------------------------------------------|----------|------------|-------------|----------|
| Sodium aluminium silicate                       | 37244-96-5 | Data not available or insufficient for classification | N/A      | N/A        | N/A         | N/A      |
| Vinyl terminated polydimethylsil oxane          | 68083-19-2 | Data not available or insufficient for classification | N/A      | N/A        | N/A         | N/A      |
| Poly(dimethyls iloxane)                         | 63148-62-9 | Data not available or insufficient for classification | N/A      | N/A        | N/A         | N/A      |
| 2-Propenoic acid, 2-methyl-, 3-(trimetoxysilyl) | 67762-90-7 | Data not available or insufficient for classification | N/A      | N/A        | N/A         | N/A      |

|                                               |            |                                                       |     |     |     |     |
|-----------------------------------------------|------------|-------------------------------------------------------|-----|-----|-----|-----|
| propyl ester, hydrolysis products with silica |            |                                                       |     |     |     |     |
| DL-Alpha-Tocopherol                           | 10191-41-0 | Data not available or insufficient for classification | N/A | N/A | N/A | N/A |

**12.4. Mobility in soil**

Please contact manufacturer for more details

**12.5 Other adverse effects**

No information available.

## SECTION 13: Disposal considerations

**13.1. Disposal methods**

In accordance with the Hazardous Substances (Disposal) Notice 2017 and the relevant criteria of the HSNO Act 1996.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility.

Packaging (that may or may not contain any residual substance) may be lawfully disposed of by householders or other consumers through public or commercial waste collection services.

## SECTION 14: Transport Information

**New Zealand Land Transport Rule: Dangerous Goods - Road/Rail Transport**

**UN No.:** Not applicable.

**Proper Shipping Name:** Not applicable.

**Class/Division:** Not applicable.

**Sub Risk:** Not applicable.

**Packing Group:** Not applicable.

**Hazchem Code:** Not applicable.

**IERG:** Not applicable.

**International Air Transport Association (IATA) - Air Transport**

**UN No.:** Not applicable.

**Proper Shipping Name:** Not applicable.

**Class/Division:** Not applicable.

**Sub Risk:** Not applicable.

**Packing Group:** Not applicable.

**International Maritime Dangerous Goods Code (IMDG) - Marine Transport**

**UN No.:** Not applicable.

**Proper Shipping Name:** Not applicable.

**Class/Division:** Not applicable.

**Sub Risk:** Not applicable.

**Packing Group:** Not applicable.

**Marine Pollutant:** Not applicable.

## SECTION 15: Regulatory information

HSNO Approval number Not applicable  
Group standard name Not applicable  
HSNO Hazard classification Refer to Section 2: Hazard identification

**NZ Inventory of Chemicals (NZIoC) Status**

All applicable chemical ingredients in this material are in compliance with NZIoC listing requirements.

**Controls in accordance with The Health and Safety at Work Act 2015, Health and Safety at Work (Hazardous Substances) Regulations 2017 and the HSNO Act 1996, Hazardous Substances (Hazardous Property Controls) Notice 2017**

|                                 |              |
|---------------------------------|--------------|
| Certified handler               | Not required |
| Location Compliance Certificate | Not required |
| Hazardous atmosphere zone       | Not required |
