

Material Safety Data Sheet Cover-Sheet – This page provides additional New Zealand specific information for this product and must be read in conjunction with the Safety Data Sheet (SDS) attached

Product Name: Resilience Pumice

Manufacturer: Garreco

SDS: As per Manufacturer website

Supplier Details: Henry Schein New Zealand
243-249 Bush Road, Rosedale, Auckland, 0632
PO Box 101 140, North Shore, Auckland 0745
Ph. 0800 808 855
www.henryschein.co.nz

Emergency Contacts: Poisons/Hazardous Chemical Info Centre –
0800POISON/0800764766 (24 Hours)
Phone 111 for Fire, Ambulance or Police

HSNO Class/Category: 6

HSNO Group Standard: Dental Products Subsidiary Hazard Group Standard 2020
HSR002558

Statements/Pictograms: As per attached Safety Data Sheet (SDS)

Date Prepared: This coversheet was prepared – May 2023

This SDS coversheet has been produced by Henry Schein NZ and has been prepared in accordance with NZ EPA advice on making overseas SDS compliant to HSNO Act. The above information is based on the present state of our knowledge of the product at the time of publication. It is given in good faith, no warranty is implied with respect to the quality or the specifications of the product. Users must satisfy that the product is entirely suitable for their purpose. The SDS and this coversheet may be revised from time to time, please ensure you have a current copy.

Safety Data Sheet

Form No. A590

Date Prepared: 3/16/2018

SECTION 1 : Identification of the substance/preparation and of the company / undertaking**(a) GHS product identifier**

Resilience

(e) Emergency phone numberCHEMTREC 1-800-424-9300
CCN9105**(b) Other means of identification**

NA

(c) Recommended use of the chemical and restrictions on use

For professional dental applications.

(d) Supplier's detailsGarreco, LLC.
430 Hiram Road
Heber Springs, AR 72543
Phone: 1-800-334-1443**SECTION 2: Hazards identification****(a) GHS classification of the substance/mixture****Substance Name**

1. Undisclosed due to Confidential Business Information (CBI)
2. Crystalline Silica

(b) Label Elements**Hazard statements**

Harmful if inhaled.

Precautionary statements

Do not breathe dust.

Do not eat, drink, or smoke when using this product.

In case of inadequate ventilation wear respiratory protection.

Response**IF ON SKIN:** Wash off with plenty of water. If skin irritation continues, consult a doctor.**IF INHALED:** Supply fresh air; consult doctor in case of complaints.**IF SWALLOWED:** Rinse out mouth. If symptoms persist consult doctor.**IF IN EYES:** Rinse opened eye for several minutes under running water.**Storage**

Store in a dry, well-ventilated area.

Disposal

If this material as supplied becomes a waste, use solid waste disposal common to landfill type operations.

Hazard Symbol(s)

Health Hazard

Signal Word(s)

Danger

(c) Other hazards which do not result in classificationIARC - International Agency for Research on Cancer: 1- Carcinogenic to humans; NTP National Toxicology Program (Health and Human Services Dept., Public Health Service, NIH/NIEHS): 1- Known to be carcinogen
ACGIH American Conference of Governmental Industrial Hygienists: A2 Suspected human carcinogen
CAL-65: Listed as Chemical know to the State of California to Cause Cancer**SECTION 3: Composition/information on ingredients****(a) Chemical(s) Identity:****(b) Common Name:**Undisclosed due to Confidential Business Information
Crystalline Silica**(c) CAS No.**NA
14464-46-1**Mixture:****Concentration (Percentage)**50-65%
35-50%

SECTION 4: First-aid measures**(a) Description of first aid measures:**

IF ON SKIN (or hair): Use moisture renewing lotions if dryness occurs.

IF INHALED: Remove to fresh air. Blow nose to evacuate dust.

IF SWALLOWED: Drink generous amounts of water to reduce bulk and drying effects. Consult a physician if you feel unwell.

IF IN EYES: Flush eyes with water or eye rinse solution. Consult a physician if irritation persists.

(b) Most important symptoms and effects, both acute and delayed:

IF INHALED: Nuisance conditions. Labored breathing may occur after excessive inhalation.

IN EYES: If burning, redness, itching, pain or other symptoms persist or develop, consult a physician.

(c) Indication of any immediate medical attention and special treatment needed:

ND

SECTION 5: Fire-fighting measures**(a) Suitable extinguishing media:**

Not applicable, the material is not flammable.

(b) Special hazards arising from the chemical or mixture:

Not applicable, the material is not flammable.

(c) Special protective equipment and precautions for fire-fighters:

Not applicable, the material is not flammable.

SECTION 6: Accidental release measures**(a) Personal precautions, protective equipment and emergency procedures:**

If dust is present, use respirator fitted with particulate filter as specified in Section 8. Protect eyes with goggles. Do not breathe dust.

(b) Environmental precautions:

Toxicity studies performed with fish, aquatic invertebrates and aquatic plants showed no toxic effect.

(c) Methods and material for containment and cleaning up:

Vacuum clean spillage or wet sweep. Avoid creating airborne dust. Place in a container for use or disposal.

SECTION 7: Handling and storage**(a) Precautions for safe handling:**

Can release dust in handling or during use. Eye, skin, nose, throat, and upper respiratory irritation may occur.

(b) Conditions for safe storage, including any incompatibilities:

Store in a dry area to minimize potential for clumping due to moisture absorption.

SECTION 8: Exposure controls/Personal protection**(a) Control parameters:**

Chemical	ACGIH 2017 TLV TLV	OSHA PEL TWA
CBI	10 mg/m ³	15 mg/m ³ total, 5 mg/m ³ respirable
Crystalline Silica	0.025 mg/m ³ respirable	1/2 x (10mg/m ³ / SiO ₂ +2) (effective until 6/23/17) 50 µg/m ³ respirable (effective 6/23/17)

(b) Appropriate Engineering Controls:

Ventilate to keep exposures below TLV requirements. General ventilation is expected to be satisfactory. Use local exhaust ventilation if necessary.

(c) Individual protection measures:

RESPIRATORY: Appropriate respirators fitted with filters certified to standard 42CFR84 under series N95 should be worn when dust is present.

OTHER PROTECTIVE MEASURES: Avoid breathing dust. Avoid contact with eyes. Wash hands after handling and before eating or drinking. No special body protection is required under typical circumstances of use and handling.

SECTION 9: Physical and chemical properties

(a) Appearance:	White to off-white powder
(b) Odor:	None
(c) Odor threshold:	ND
(d) pH:	10
(e) Melting point / freezing point:	1,300 °C
(f) Initial boiling point and boiling range:	ND
(g) Flash point	Not Combustible
(h) Evaporation rate (BuAc=1):	ND
(i) Flammability:	ND
(j) Upper/lower flammability or explosive limits:	ND
(k) Vapor Pressure:	ND
(l) Vapor density:	ND
(m) Relative density:	2.3
(n) Solubility:	<1%
(o) Partition coefficient: n-octanol/water:	ND
(p) Auto-ignition temperature:	ND
(q) Decomposition temperature:	1,300 °C
(r) Viscosity:	ND

SECTION 10: Stability and reactivity

(a) Reactivity:	Not reactive, HMIS 0
(b) Chemical stability:	Stable
(c) Possibility of hazardous reactions:	Low
(d) Conditions to avoid:	Incompatible with Acids.
(f) Hazardous decomposition products:	Decomposes to Calcium Oxide and Sulfur Dioxide at 1,450 °C.

SECTION 11: Toxicological information

Acute toxicity	NA
Skin corrosion/irritation	May cause dryness and irritation if prolonged exposure.
Serious Eye Damage / Irritation	may cause irritation.
Respiratory or skin sensitization	Can cause dryness of the nasal passage and lung congestion.
Germ cell mutagenicity	NA
Carcinogenicity	Crystalline silica, when inhaled as respirable dust, has been classified as carcinogenic to humans over prolonged and sustained exposure.
Reproductive toxicity	NA
STOT-single exposure	NA
STOT-repeated exposure	Inhalation of respirable silica may contribute to respiratory silicosis.
Aspiration Hazard	NA

(a) Exposure route:	Inhalation, skin and/or eye contact.
(b) Symptoms related to the physical, chemical and toxicological characteristics:	Difficulty breathing, rashes or irritations.
(c) Delayed and immediate effects and also chronic effects from short and long term exposure:	Difficulty breathing, rashes or irritations.
(d) Numerical measures of toxicity:	See control parameters above.

SECTION 12: Ecological information

(a) Ecotoxicity:	ND
(b) Persistence and degradability:	ND
(c) Bioaccumulative potential	ND
(d) Mobility in soil:	ND
(e) Other adverse effects:	Possible natural insecticide.

SECTION 13: Disposal considerations**Product:****Recommendation**

Dispose of material in accordance with all applicable federal, state and local regulations, typically solid waste disposal common to landfill type operations.

SECTION 14: Transport information**(a) UN Number**

This product is not regulated as a hazardous material by neither the United States (DOT) Transportation Regulations nor Canadian Transportation of Dangerous Goods.

(b) UN Proper shipping name

NA

(c) Transport hazard class(es)

NA

(d) Packing Group

NA

(e) Environmental hazards

NA

(f) Transport in bulk

NA

(g) Other Information

NA

SECTION 15: Regulatory information**SARA Reporting Requirements:**

NA

SARA Threshold Planning Quantity:

NA

TSCA Inventory Status:

ND

Other Federal Requirements:

NA

Other Canadian Regulations:

Crystalline silica is classified as a D2A substance.

State Regulatory Information:

This product contains crystalline silica, a chemical known to the State of California to cause cancer.

Safety Data Sheet

Form No. A590

Date Prepared: 3/16/2018

SECTION 16: Other information**PREPARED BY:**

Kristofer Mainar

GAR QMS SDS REFERENCE:

A591

HAZARDOUS MATERIAL IDENTIFICATION (HMIS) RATING:

Health	0
Flammability	0
Reactivity	0
Other	NA

NATIONAL FIRE PROTECTION ASSOCIATION (NFPA) RATING:

Health	0
