“Amazing E50 Life Kavo chair! This unit has been a great addition to the practice; the functionality and ergonomics of the chair makes it a wonderful chair to perform dentistry with both for the dentist and dental assistant. This is matched with modern aesthetics that blends in well with the practice interior.”

Dr Matthew Cho – icare Dental – Wellington

“I really like the longevity of the Kavo dental units. Routine servicing has meant I have not had issues with breakdowns and when it came time to update my 17 year old unit, there was absolutely no question that I would replace it with another Kavo.

It's like the Toyota of the dental world.”

Kavo User, Hamilton

Rely on Us™

The perfect choice - for the perfect treatment unit.

The KaVo quality advantage

KaVo's quality advantage pays off, because it guarantees exceptional reliability, low maintenance requirements and a long service-life.

- Long-term maintenance of value: long-lasting, complete reliability of all KaVo products
- Treatment successes: through accurate and precise workflow
- Safety: complete quality control and testing
- Cost efficient: very little downtime or repairs

The KaVo system solution advantage

KaVo offers you systematic success: You can complement and update your treatment unit at any time. You can save on expensive new acquisitions and protect your investment.

- Functional and combined safety: all components from one source
- Reliability: all products are perfectly compatible
- Provisions for the future: spare parts available for a long time, additional components may be subsequently integrated, at low cost

The KaVo innovation advantage

Our development teams - the biggest and most innovative in the dental market - are well known as successful pioneers. Ensure your success tomorrow by using KaVo innovations today.

- Investment protection: future technologies can be integrated without problems
- Health protection and time-saving: innovative, integrated automatic hygiene functions
- Uniform standards: more than 2,200 patents and registered designs

The KaVo Made-in-Germany advantage

Play it safe and rely on quality, made in Germany - with treatment units, handpieces and all other KaVo dental products.

- Trustworthiness: Highest international and additional internal quality manufacturing standards, such as clean room installations in Biberach
- Precision and safety: world-class manufacturing technology
- Sustainability: proven and innovative technologies and materials

KaVo ESTETICA™ E30

- Affordable entry into the KaVo world
- KaVo quality and reliability in every single detail
- Ideal for right-handed and left-handed practitioners – fully adaptable in less than two minutes

KaVo ESTETICA™ E50 Life

- A modern dental chair with exceptional ergonomics, resulting in more comfortable treatment
- Highest hygiene standards thanks to continual disinfection and intensive sanitisation, HYDROCLEAN and removable parts
- Flexible add-ons and many different integration options (e.g. endofunction) meaning time saved during your workflow
