REALISE YOUR DREAM AND LET HENRY SCHEIN HELP YOU CREATE IT

At Henry Schein we pride ourselves in supplying New Zealand's largest portfolio of leading dental consumable and equipment brands, with the goal of providing the most comprehensive solution for your practice, and one that can be tailored to your individual needs.

Every step of the way, our Sales Specialists and project management partners will be there to offer support and guidance in making your vision come to life. Our team are committed to making this sometimes-daunting process as stress-free as possible while ensuring completion on time and within budget.

RENOVATION · EXPANSION · RELOCATION · BRAND NEW PRACTICE

Purchase your equipment

Colgate Savacol Anti-Stain

Chlorhexidine protection with reduced staining

- **NEW anti stain technology** Up to 3.1x less staining* than standard Savacol (*vs regular MW with 0.12% CHX after 4 weeks use).
- **Clinically proven CHX protection:** 0.2% Chlorhexidine, the gold standard, actively fights bacteria and reduces plaque.
- **Supports healthier gums:** Helps prevent plaque and tartar build-up during short-term intensive care.
- **Patient-friendly formula:** Mild mint, alcohol-free for comfort and better compliance.

Kuraray CLEARFIL™ Universal Bond Quick 2

Fast, strong, seamless

CLEARFIL™ Universal Bond Quick 2 includes the original MDP combined with unique AMIDE and new UTM monomers, that forms a thin, strong adhesive layer with no waiting time, resulting in Advanced Rapid Bond Technology. This combination improves the strength of the bonding layer, aimed at gaining reliability for one-step bonding and no refrigeration required for storage.

- **No waiting time** and high bond strength
- **Easy to apply** independent of cavity and abutment tooth
- **Room temperature** storage, no need to refrigerate
- Expanding and enhancing universal use

NEW

Maxima Advanced Ultrasonic Cleaner MA210

The power, speed and efficiency you've been waiting for.

- Industry leading clean time under 10 mins*
- Powerful cleaning technology
- Quiet operation (69 db)
- Compact size (8L) fits comfortably in tight spaces
- Built to last with durable aluminum

GC

NEW

GC FujiCEM® Evolve

The zirconia luting solution from the leader in Glass Ionomer technology

GC FujiCEM® Evolve is a radiopaque resin-reinforced glass ionomer cement in a syringe delivery with a tack-cure feature and high radiopacity.

It can be used for cementation of a variety of substrates and different types of indirect restorations. It offers high bond strength to zirconia, ensuring reliable, long-lasting restorations.

GC FujiCEM® Evolve provides high fluoride release and excellent moisture tolerance for enhanced predictable clinical performance. The new tack-cure feature reduces cleanup time to seconds, and its high radiopacity allows for easy visualisation.

The Henry Schein Team supporting your digital journey

In today's digital dentistry environment, technology has become central to clinical workflows, patient experience, and practice productivity. At Henry Schein New Zealand, our Digital Technology Service Team is dedicated to ensuring dentists can confidently embrace and maximise the benefits of digital imaging, intraoral scanning, CAD/CAM milling, and 3D printing technologies.

Through advanced remote diagnostic tools and screen-sharing capabilities, our specialists minimise disruption to clinical schedules and enable practices to return to treating patients faster.

Underlying every customer interaction is a philosophy of ownership and accountability. Our service professionals are committed to delivering an "I'll take care of it" experience, working closely with customers to ensure challenges are addressed quickly and effectively. The focus is not simply on fixing equipment, but on helping practices achieve successful clinical and commercial outcomes.

Henry Schein New Zealand has built its reputation on providing personalised service, professional advice, and technical expertise to the dental profession. Our Digital Technology Service Team continues this tradition by combining in-depth technical knowledge with a customer-first approach that helps practices confidently navigate the transition to digital dentistry.

For 10 years Dustin has managed to keep my mills running, once you are set up it's the support that keeps your workflow going, and Henry Schein manage four mills for us now. When you're looking at buying new equipment it's not just the products you're investing in, it's the support that comes with them that is key, and that's where Henry Schein has been one of the best relationships of my career.
